The blue whales are huge animals. They live in oceans around the world. They are about 30 meters long. The biggest blue whale is 190,000 kilograms and 98 feet long. This makes blue whales the largest animals on earth, even bigger than the largest dinosaurs(恐龙). The blue whale feeds on the smallest animals. There were many blue whales in the 19th century, but now there are only around 4,000 left.

The elephant is the largest animal on land. The largest elephant is 13,500 kilograms and stands 13 feet 8 inches tall. They mainly feed on grass, leaves and fruit. At the turn of the 20th century,

there were a few million African elephants and about 100,000 Asian elephants. Today, there are about 450,000 to 700,000 African elephants and 35,000 to 40,000 wild Asian elephants. The tiger is the largest wild cat in the world. It lives in Asia, mainly in India, Bhutan, China and Siberia. Tigers love eating meat. Most tigers have orange fur with black stripes(条纹). The white tiger is the most special. Tigers are becoming fewer and fewer. Around the world, there are about 3,500 wild Bengal tigers.

76. Where do the blue whales live?

77. How heavy is the biggest blue whale?

78. What do elephants mainly feed on?

79. What kind of tiger is the most special tiger?

80. How many wild Bengal tigers are there in the world?
