## 书面表达: (15分)

Do you like pandas? Pandas live in China. They like eating bamboo. They are black and white. They look so cute and beautiful. They are one of the most popular animals in the world.

However, they are in danger now. One of the reasons is that people cut down many bamboo forests, so pandas are losing their homes and they don't have enough food to eat. What's more, some pandas die of illness and don't live very long. I think we should do something to protect pandas. Firstly, we should set up more nature reserves. Secondly, We must stop cutting down bamboo forests and plant more bamboos.

If we can do these, I think there will be more and more pandas. Let's take action now!
